EVOLV+

Wall & Ceiling Systems

The Next Evolution in Surface Design

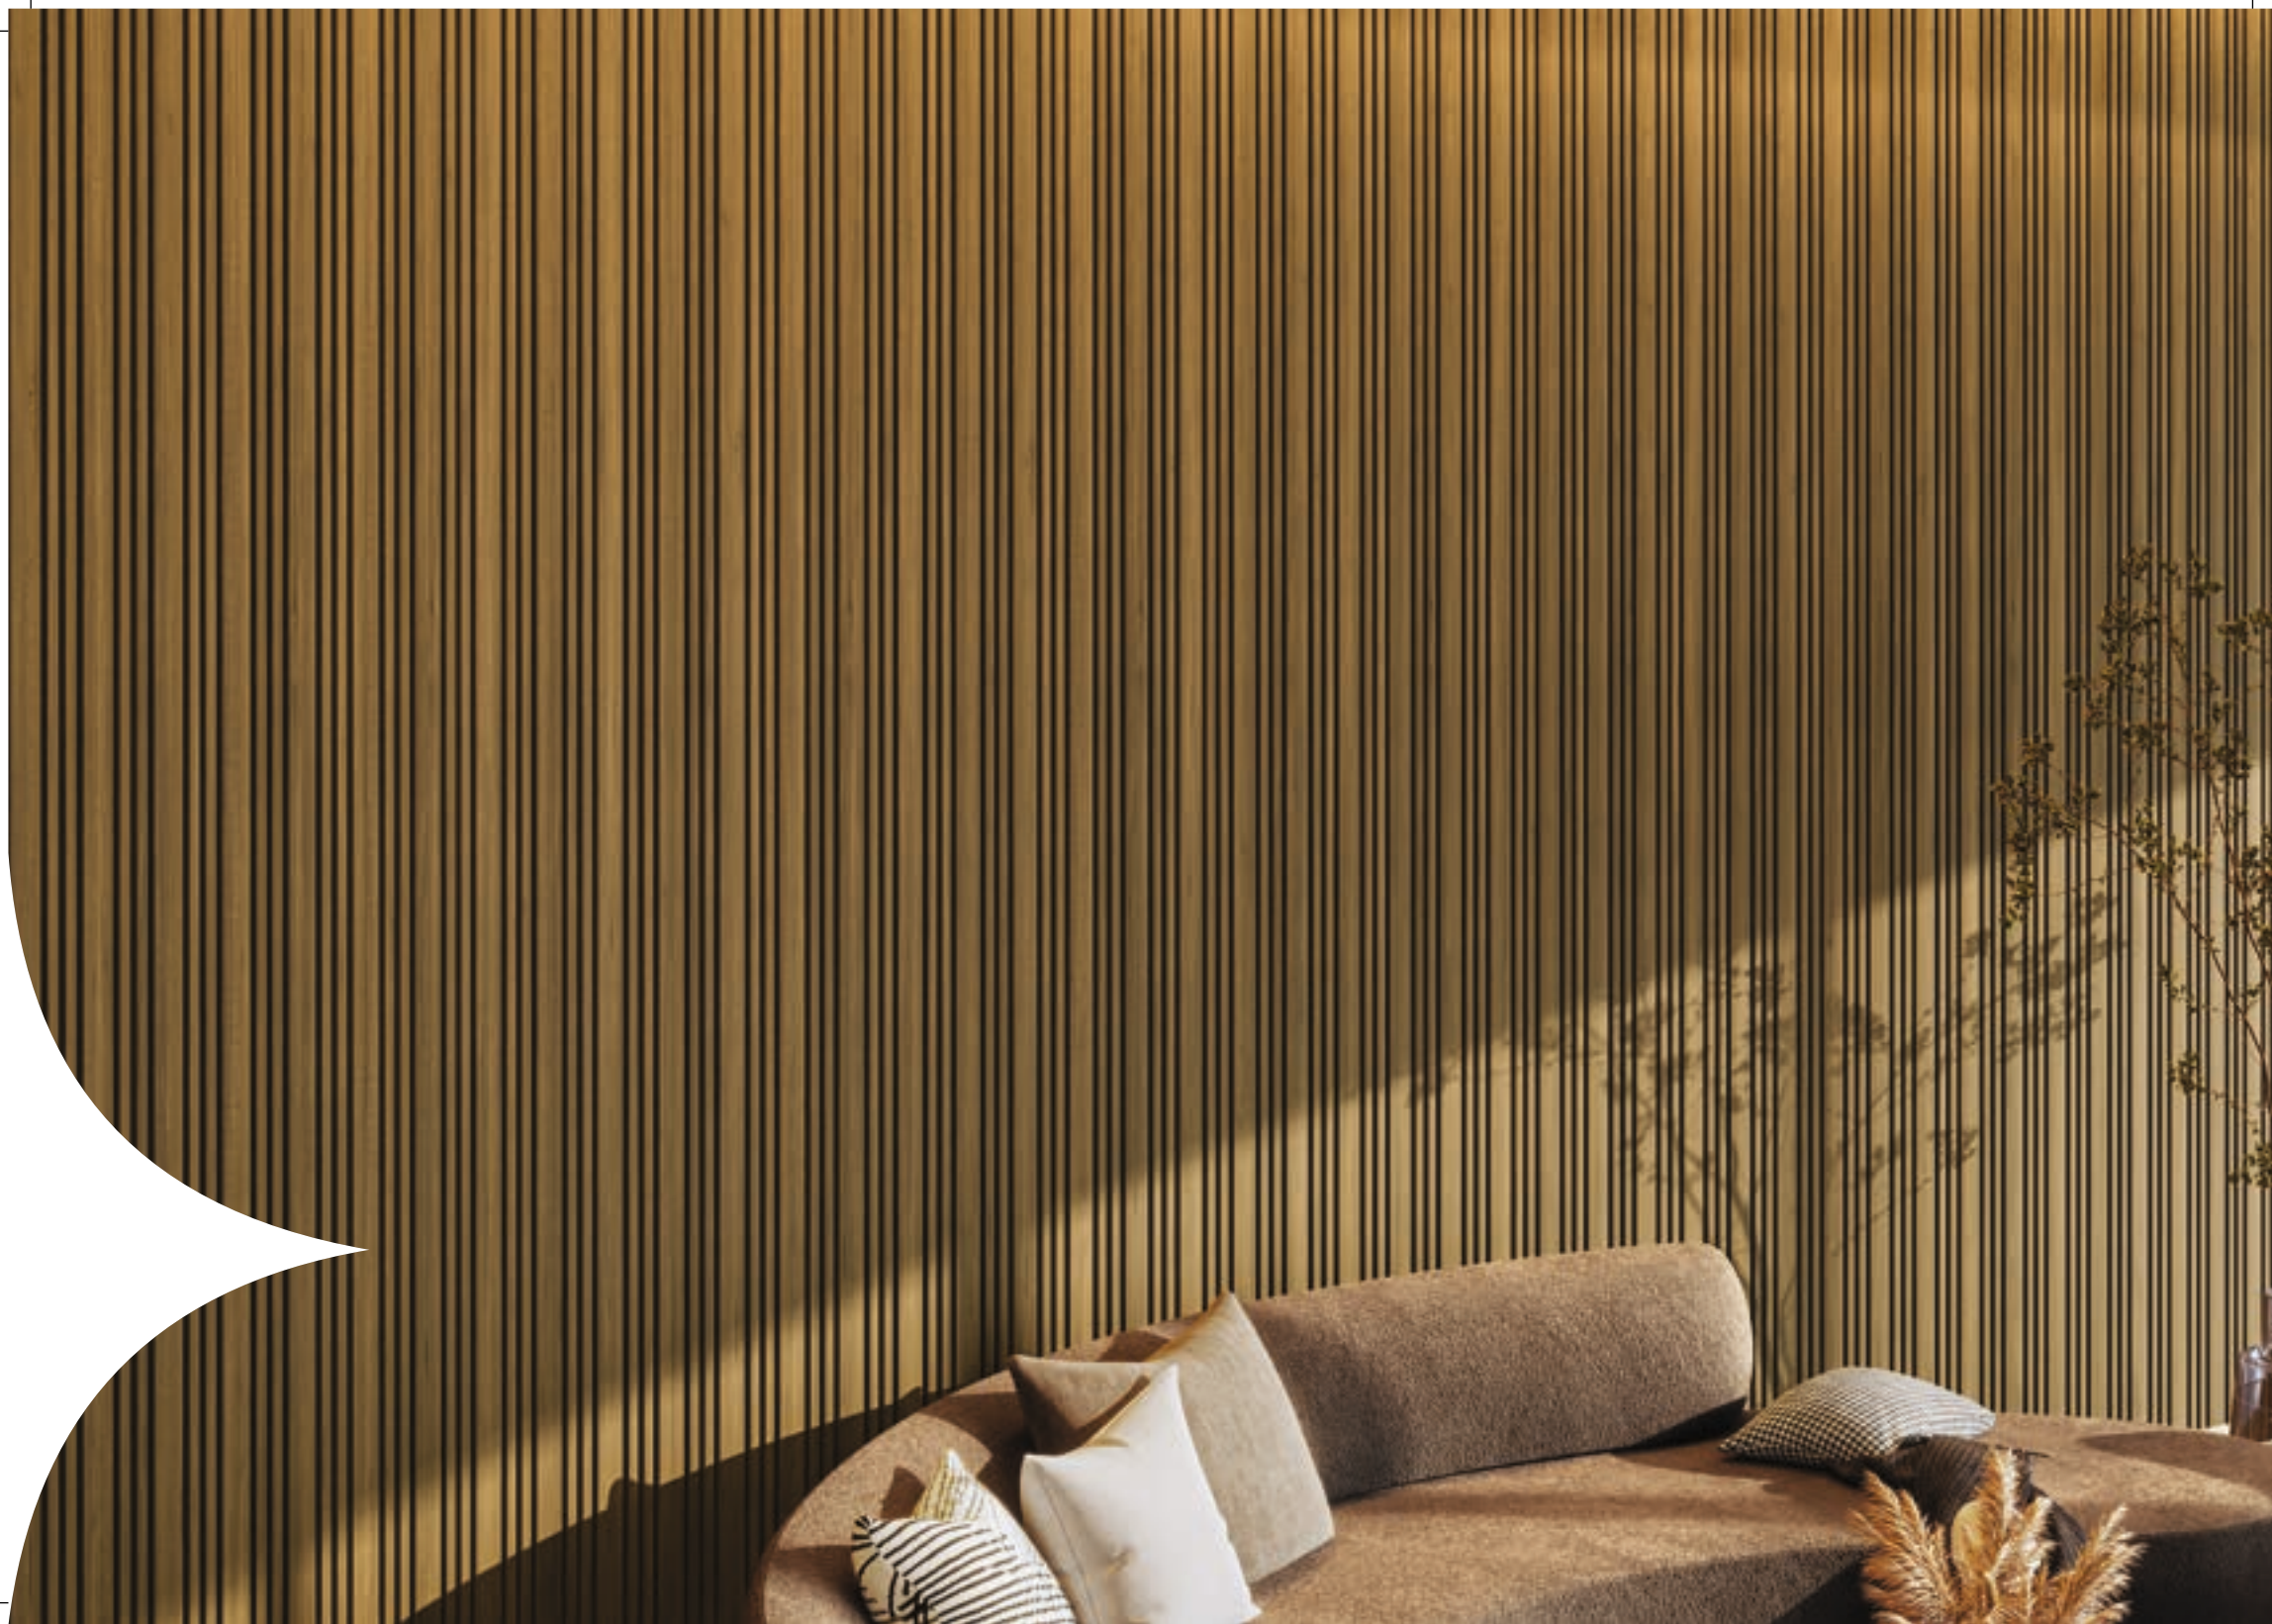

EVOLV+ represents a breakthrough in wall and ceiling panel innovation. It is born from design thinking, precision engineering and a deep understanding of how spaces inspire emotion.

At PARÉ, every creation is an evolution. It is a reflection of our passion to redefine interiors and exteriors through advanced polymer-based surfaces that are as functional as they are beautiful.

EVOLV+ brings together artistry and innovation to offer textures that respond to light, perspective and mood, transforming surfaces into living design expressions.

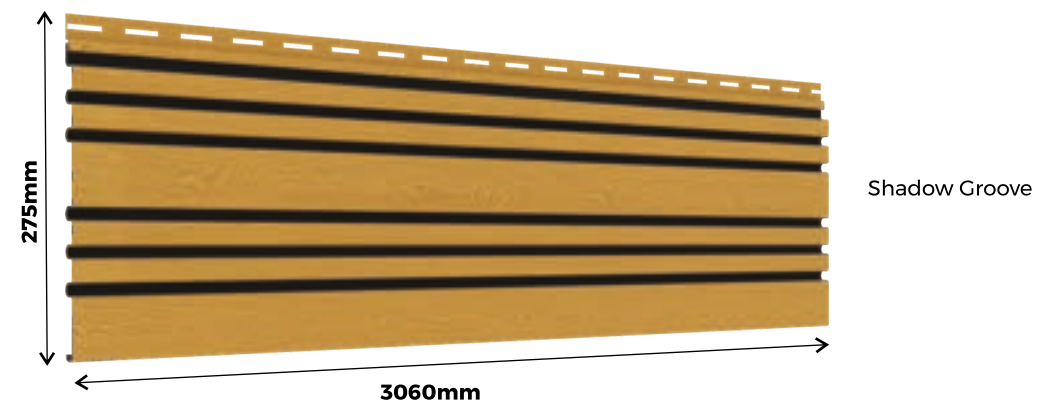

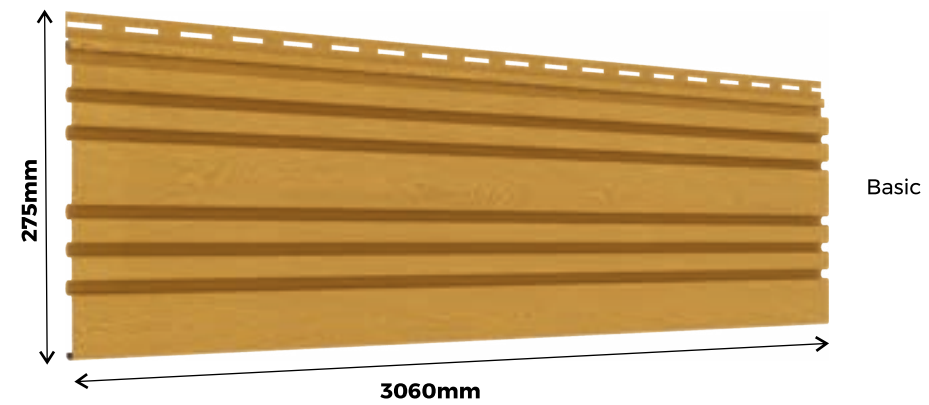

EVOLV+

Wall & Ceiling Systems

Nova

Product Code:147 | Size: 275mm x 3060mm

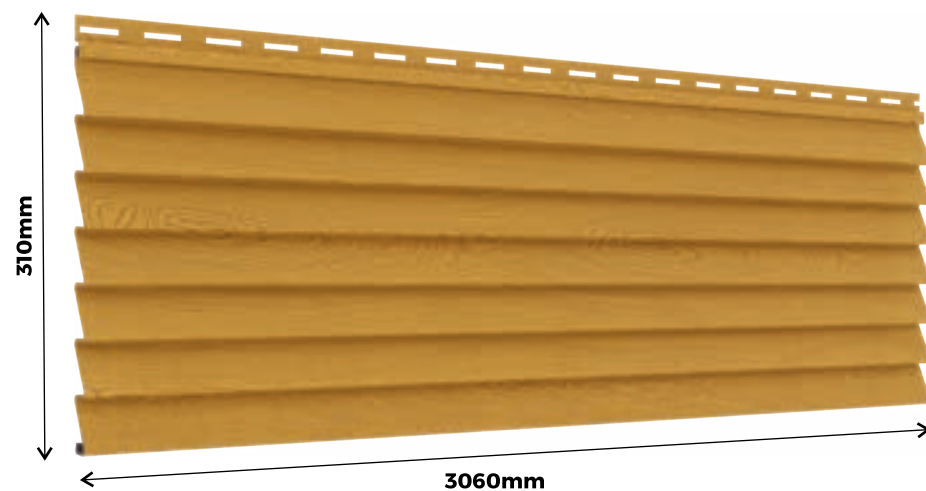

EVOLV+

Wall & Ceiling Systems

Delta

Product Code:148 | Size: 310mm x 3060mm

VERSATILITY

Unleash limitless design possibilities with PARÉ panels. Most of our panels feature a unique tongue-and-groove interlocking system, allowing you to seamlessly interlock any panel with another effortlessly. Mix different products, blend shades or even pair the same panel in Basic and Shadow Groove finishes to create striking patterns and custom compositions.

The Result?

The result is a perfectly aligned, seamless surface that reflects your creativity. With PARÉ, design has no boundaries because the choice is entirely yours.

Basic

Shadow Groove

EVOLV+

Wall & Ceiling Systems

Introducing Shadow Groove, a breakthrough innovation by PARÉ. This pioneering technology transforms how you perceive walls and ceilings.

**Shadow Groove is not just a finish.
It is an illusion and a play of depth and light
that gives every panel a new visual dimension.**

Each groove is meticulously engineered to create an interplay between tone and shadow, forming a multi-layered aesthetic that evolves as light moves across the surface. When installed on ceilings, the magic unfolds. The darker shadow section gently recedes from sight while the visible tone appears to float effortlessly.

The Result?

The result is a striking illusion of a floating ceiling where the panels seem to hover weightlessly, defying visual expectations and adding a dramatic architectural aura to the space.

EVOLV+

Wall & Ceiling Systems

All the pluses of natural wood.
Minus the maintenance hassles.

EVOLV+

Wall & Ceiling Systems

Designed for Every Space
That Deserves
To Stand Out

- ✓ Residential Spaces
- ✓ Corporate Offices
- ✓ Hospitality & Retail
- ✓ Public & Recreational Areas

Technical Declaration

EVOLV+
Wall & Ceiling Systems

PRODUCT TEST DATA :

TESTS	RESULTS
Impact Resistance	No deformation observed. (Tested at 50 LBS)
Tensile Strength, MPa:	> 37.0
Tensile Modulus, MPa:	> 2000
Surface Distortion	None at 120F
Length	Within 1/4" of specification
Lock Control	Complies
Colour Change	<2 greyscales {16hrs under 1200W/m2 UV radiation at 50 degrees}
Squareness	<1/8" of square

DECLARED PERFORMANCE

ESSENTIAL CHARACTERISTIC	PERFORMANCE	HARMONISED TECHNICAL SPECIFICATION
Reaction to fire EN 13501-1	D-s3;d0	EN 13245-2:2009/AC:2010
Release of dangerous substance	NPD	
Durability	A.4.65	

Relavant Codes & Regulations Compliance :

Conforms to ASTM Specifications D-4477
Colour : Uniformity is Spectrophotometrically Controlled.
Lock : Optically Measured & Controlled.
