flooring

Layer Structure

UV Coating

Provides protection against scratches, stains and UV fading.

Wear Layer

A transparent durable top layer that resists wear and tear from foot traffic.

Decor Film

High-resolution printed layer that gives the tile its realistic wood look.

LVT Core Sheet

The core layer is made from vinyl for flexibility, strength and dimensional stability.

Schools, Daycares,
Training Centers.

LVT FLOORING INSTALLATION GUIDE

Step 1: Prepare the Subfloor

- Ensure the subfloor (concrete or existing tile) is **clean, dry** and **level**.
- Remove any old adhesives, dust or debris.
- Fill cracks or low spots with a suitable floor leveler.

Step 2: Apply Adhesive Coat

- Use the **recommended adhesive** for your LVT tiles.
- Spread adhesive evenly using a notched trowel.
- Allow it to set slightly (as per adhesive instructions) before placing tiles.

Step 3: Install the Tiles

- Start from one corner of the room
- Lay tiles **tightly together** without leaving gaps.
- Use a roller to press tiles down firmly to ensure proper adhesion.
